NEXTIER · DATA ENGINE · TEAM MUSSO

Read me first. No tech needed.

For Paul, your brother and Bryan.

Team Musso has its own data engine: a database you own that finds land worth buying, the owner behind it, and how to reach them, and keeps all of it fresh every week. You open a page, search and read. That's it.

WHAT WE MANAGE FOR YOU

🧠 The Data Engine

- 🗺️ **Finds the land.** Access to every parcel in New York State. Focus on Suffolk and Nassau, checked every week.
- 🎯 **Finds why now.** Expired and never relisted, expired twice, sat too long, estates, developers buying next door. No foreclosure.
- 📐 **Reads the deal.** Acres, zoning, how many lots it splits into, last asking price.
- 👤 **Finds the owner.** Past the LLC to the person who signs.
- 📱 **Gets phones and emails.** On your own account, with Do Not Call checked.
- 🖨️ **One record per lot.** Land, listing, owner, phones and emails in one place.
- 🧱 **Hands you lists.** Best lots first.
- ☎️ **Click to call.** One owner at a time, right from the lot, on your own line. Every call is recorded on the lot.

> **Click to call is where the data engine ends.**

ITS OWN PACKAGE

🚀 The Campaign Engine

- ✉️ **Email** to owners from your own address
- 💬 **First texts** to a whole list, sent only when a person presses Send
- 🙋 **Replies** worked first, with callbacks and follow-up
- 🗓️ **Appointments** into Follow Up Boss

> **Email and texts are the Campaign Engine. The data engine still keeps the record of every one, so each lot's history stays complete. Wherever you launch your first campaign, we've got you.**

🔎 How to search · 4 steps

1. Open the **Hunt Engine**.
2. Type a **town, county, ZIP or owner's name** in the search box.
3. **Click a lot** on the list or the map.
4. Read the record: **the deal, the owner, the phones.**

🧭 Your pages · open each one when…

🎬 Overview
…you want the 2-minute tour. Press Play and watch.

🗺️ Hunt Engine
…you want to find land and look up an owner.

📊 Territory Intelligence
…you want counts by town and by reason to call.

📋 Cheat sheet
…you want the capabilities and costs on one page.

🗓️ First 30 Days
…you want the plan, the rules and your keys.

📖 Glossary
…a word on any page doesn't make sense.

📰 News feed
…you want local news, with why each story matters to you.

🖨️ Universal lead card
…you want to see one lot with every source merged.

🔎 How search works
…you want to know what happens when you press Enter.

🤝 What we need from you

- 🔑 **Your keys:** Tracerfy, your OneKey login, and SignalHouse for click to call. Follow Up Boss only if you add the Campaign Engine.
- 🎯 **Your OK on the focus:** Suffolk and Nassau first. The Bronx, all the way up to Orange County, is next when you say. The whole state is in your lake either way.
- 👥 **Who gets a login.**
- ⏱️ **15 minutes a week** to review what came in.

🛡️ Our promises

- 🔑 **You own it.** Your keys, your database, your data.
- 🗒️ **You see every bill.** Every service bills you directly.
- 📊 **You see the count before you spend.** Counting costs nothing; you approve every pull.
- 🔒 **Your data stays private.** Owner names and phones live in your workspace only.
- 👆 **Nothing goes out on its own.** A person presses Send, every time.
- 🔕 **No foreclosure pulls.**

❓ Questions

Ask Thomas. Every page links to the others, and the Glossary explains every word.
